

4.5.2021

## The Finnish Society of Gastroenterology invites you to become a supporting member 2021

The supporting member can be an individual, a corporation or a society, which wishes to support and endorse the mission and the activities of the Finnish Society of Gastroenterology. The Society organizes yearly conferences in September and every other year in February.

The benefits of the membership include a priority in reserving an exhibition space and access to the best locations in the exhibition during the conferences or events of the society.

The supporting members have a possibility to meet with the representatives of the board of the Society of Gastroenterology; such meetings are held every other year during the September conference. The supporting members also have the possibility to subscribe to the newsletter of the Society of Gastroenterology (published 3-5 times a year).

In addition, the logo of the supporting member company or corporation, along with the contact information and the link to the website of the company, may be added to the website of the Society of Gastroenterology [www.gastroenterologiayhdistys.fi](http://www.gastroenterologiayhdistys.fi).

The annual membership fee for the supporting member is 250 € for the year 2021.

Please indicate your interest in the supporting membership with this [online form](#).
